

Lesson Budget Options

Skaters registered in Junior, Intermediate, and Senior STARSkate programs (sessions) will receive private lessons from our coaches. These will be individual (1 coach:1skater), semi-private (1 coach:2 skaters), or group lessons (1 coach: 3+ skaters) that will be planned by the coach coordinator based on your skaters goals, needs, and development.

These lessons are a separate cost from your program registration, which pays for ice costs and a few large group lessons per week. The purpose of this sheet is to choose a budget that will work comfortably for your family while also providing awesome skating lessons for your child!

Please read through the monthly budget options below and feel free to ask questions.

Our coaches will invoice each skater/family at the end of every month with the actual cost of lessons they received – but we will stay within your budget!

Session = each skating timeframe (ex. Tuesdays 4:00 – 5:00 pm)

Lesson = 10 – 15 minutes in length (cost will reflect this)

Exceptions: Test Days, Competitions, & Choreography (1 private coaching fee + expenses)

Note: We often come in under budget, especially for Junior & Intermediate skaters. Remember, our season is only from October to March.
